

# USER MANUAL

## Product Feature

- 1、 SMT technology with good quality and long operating.
- 2、 High Anti-interference;Prevent the interference from computer, DVD and Digital power amplifier.
- 3、 Prevent squeaking;Switch impulse noise canceling circuit.
- 4、 High sensitivity,Voice high fidelity;wide frequency response and good tone quality.

## Application

Apply to Family Karaoke; Computer Karaoke;Video chat;Product promotion;Outdoors lecture;Teaching; Military training; Tour guide;Exhibition and Small promotional sites.

## Specification

Frequency range:174-216MHz

Frequency Stability:150PPM(-10°C-35°C)

Operating distance:60-100M

Frequency response:60Hz-13KHz

Working temperature: -10°C-35°C)

### Receiver:

Receiving Sensitivity:>12Dbu(s/n=40Db)

Operating current:<30mA

Power supply:3V (2\*AA batteries)

## Instructions

### Receiver Instructions

Take out the battery cover and install the 2\* AA batteries (NO.5 battery) according to the correct polarity. Open the switch . The indicator is weak bright.After open the receiver the signal will be more bright.Put the plug into the amplifier,then the mic can be used normally.

### Handheld transmitter

- 1、 Take out the battery cover and install the batteries,push the switch to “ON” that it can work normally.
- 2、 When the indicator is bright,the battery power is lower,it should be replaced the batteries.

### Notice:

- 1、 When the battery low.microphone will appear noise,modified tone,staccato appear,the batteries should be replaced.
- 2、 Push the power switch to “OFF” after using microphone.
- 3、 In order to avoid the damage of components,battery acidification or weeping,please take out the batteries when long time no use.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
