

Model: BE200D2W

Label information

The device is considered to be too small for the label since it is impracticable to label with a font size that is four-points or larger. The FCC ID and IC ID is instead placed in the users manual as allowed by KDB 784748. External host labeling is still required once integrated into host.

FCC ID: PD9BE200D2
IC: 1000M-BE200D2
