

ATMOCUBE

REGULATORY INFORMATION

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

USAGE AND STORAGE REGULATIONS

- The product can be used at temperatures between +5 °C to 45 °C (41 °F to 113 °F). Avoid any extreme temperature changes. Recommended conditions for accurate readings are 5 °C to 30 °C at less than 85% RH.
- The product can be stored at temperatures between 0 °C to 85 °C (32 °F to 185 °F) and less than 85% humidity.
- Avoid any prolonged exposure to chemical products and dust — they may damage Atmotech's sensors. In particular avoid exposure to:
 - Silicone vapors from sources such as silicone adhesives, silica gel.
 - Silicone rubber, silicone sealant, silicone gel, HMDS, oils including hair;
 - Gels and oils;
 - Corrosive gasses and vapors such as chlorine, hydrochloric acid, sulfur oxides for example, some flux vapors;
 - Acids, solvents and other liquids, including water, especially where the water contains ionic contamination such as salts;
 - Particulates and dust.
- Avoid any kind of shocks, be they physical, thermal or otherwise. They may damage internal and external components of your Atmotech.
- Atmotech is not a water-resistant device; keep the Atmotech away from water or any moisture.
- Keep your Atmotech and its accessories out of reach from children, as it contains small parts and may present a choking hazard.

WARRANTY

Atmotech Inc. Limited Warranty — the Limited Warranty extends only to the first consumer purchase of the product and is not transferable.

The warranty covers:

Subject to the exclusions contained below, the company warrants Atmotech and in-box

accessories accompanying the product against defects in workmanship and material, under normal consumer use.

The warranty does not extend to:

- Natural wear/tear (scratches, alteration of the color and/or the materials of Atmotech, peeling of Atmotech's color plating)
- Any damage to the Device/its parts resulting from accident, misuse, liquid contact, fire, earthquake or any other externally caused, abnormal or abusive use, negligence or lack of care, or accidental damage (such as dents).
- Indirect damages of any kind.

SAFETY INSTRUCTIONS

By using Atmotech you agree to the Services Terms and Conditions available at atmotech.app/terms

Atmotech is not a medical device. It is not a professional air quality monitoring device; it provides estimates intended for personal use and informational purposes only. Atmotech is subject to certain limitations and must be used in accordance with its specifications and quick start guide. Users should review the information contained in the quick start guide which is available at atmotech.app/faq for learning more.

All the screenshots/drawings in this quick start guide are provided for explanatory purposes only. The device manufacturer has a right to update application UI/device functionality without any prior notice.

IMPORTANT! Do not try to modify or repair Atmotech. All procedures related to service and maintenance should be performed by professional technicians.

Troubleshooting and assistance can be found at atmotech.app/faq

This device complies with the R&TTE Directive.

A copy of the EU Declaration of Conformity and Regulatory Information is available online at atmotech.app/regulatory

FEDERAL COMMUNICATIONS COMMISSION (FCC) STATEMENT:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made. This equipment has been tested and found compliant with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- This device may not cause harmful interference.
 - This device must accept any interference received, including interference that may cause undesired operation.
- Declaration of Conformity: Hereby, Atmotech, Inc. declares that this Atmotech is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

The symbol on the product or its packaging signifies that this product must be disposed of separately from ordinary household waste at the end of its life. Please, kindly be aware that it is your responsibility to dispose of electronic equipment at recycling centers to help conserve natural resources. For detailed information about your recycling drop off point, contact the retailer where you bought the product or your local recycling authority.

- Do not dispose of your product with other household waste.
- Disposal of the packaging and your product should be done in accordance with local regulations.

USB Type-C

First power on

Each sensor status indicator shows air quality parameter levels:
Green, Yellow, Red

It takes a few minutes for sensors to heat up and status indicators to display air quality levels. Initialization and calibration of TVOC and CH₂O sensors takes up to **48 hours**. During this period readings for these sensors may not be accurate.

You can turn the status indicators on/off using the button on the front panel.

For the best accuracy place the device:

1. On a wall, shelf or tabletop.
2. At least 1 m (3.3 ft) away from potential influences (e.g., windows, doors, humidifiers, heaters, air purifiers, air supply/exhaust outlets cleaning supplies, printers, photocopiers, ovens).
3. At a height of 1.1 - 1.7 m (3.6 - 5.6 ft) above the finished floor.
