Dear Sir or Madam:

Telit Communications S.p.A. has applied for and has been granted Federal Communications Commission (FCC) identifier RI7ME910C1WW for its radio module which carries the Telit Communications S.p.A. model number ME910C1-WW.

This letter will grant permission on a one-time basis to KCI, a company in USA, to apply for a "Change of Identification" for the above-mentioned radio module, with FCC.

Telit Communications S.p.A. understands that KCI must make this change in order to comply with Federal Communication Commission (FCC) regulations that apply to the KCI product called iOn PROGRESS REMOTE THERAPY MONITORING, which will contain our radio module ME910C1-WW under KCI's new FCC identifier 2AHDZ-ACTIVAC4G and Telit authorize FCC to use information on file to grant such Change of Identification for this device.

Telit Communications S.p.A. is supplying the ME910C1-WW to KCI, unmodified and equivalent to the originally certified unit.

The device is being supplied to the applicant unmodified and equivalent to the original approved unit.

The original test results continue to be representative of and applicable to the equipment bearing the changed identification.

Sincerely,

Ken Bednasz
Vice President of Application Engineering
Telit Communications S.p.A
