Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled '5', featuring several small, square, yellowish components (likely LEDs or capacitors) mounted on its surface. The component is positioned horizontally against a black ruler with white markings, which shows measurements in millimeters (mm) and centimeters (cm). The background is a blue, textured surface.
Solder Board-Component View 6	 A photograph of a yellowish-green printed circuit board (PCB) component, labeled '6', featuring a single, larger, square, yellowish component (likely an LED) mounted on its surface. The component is positioned horizontally against a black ruler with white markings, which shows measurements in millimeters (mm) and centimeters (cm). The background is a blue, textured surface.
