OverDryve™

USER MANUAL

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC SAR exposure limits set forth for an uncontrolled environment.

SAR compliance for using the equipment in close proximity to the human body has been evaluated at 0mm.

This equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

End-users and installers must be provide with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada Statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment should be installed and operated with a minimum distance of 0mm between the radiator and your body.

Cet équipement devrait être installé et actionné avec une distance minimum de 0mm entre le radiateur et votre corps.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur.

The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

Caution: Important Safety Information

Navigation

- Use this device at your own risk.
- Use this device only when it is safe to do so.
- Look at the display only when it is safe to do so.
- Traffic regulations always have priority over any instructions from the navigation system.
- Follow navigation system instructions only when local regulations and road traffic allow you do so.
- Make sure that the mount is securely mounted and properly adjusted before each trip.
- **Note:** If you do not understand the spoken instructions or are unsure of what to do next, refer to the navigation map on your navigation device.

Installation

- Make sure that the mount does not impair the driver's visibility.
- Do not attach the mount within the airbag deployment zone.
- When installing the mount, make sure that it does not pose a risk in the event of an accident.
- Do not run cables directly next to safety-relevant devices and power supplies.
- After installation, check all safety-relevant equipment.
- Connect the wall charger to a 120V or 240V outlet only.
- Connect the vehicle charger to a 12V outlet only.

Device

- Do not use sharp-edged objects on the device touch screen.
- The device is not waterproof and is not protected against water damage.
- Protect the device from extreme temperatures. Operating temperature for the device is between 32 degrees F and 120 degrees F.
- Do not open the device casing.
- Do not attempt to replace the battery. Contact Rand McNally Customer Support with questions about the battery.
- Always follow local regulations when disposing of this device.
- **Note:** Make sure that there are no kinks in the cable and that it will not be damaged by any sharp objects.
- **Note:** Use only a moist cloth to clean the device.
- **Note:** Do not pull the cable to unplug the unit.

Box Contents

- OverDryve™ Tablet
- Smart mount
- Bracket with suction cup
- Car charger
- USB wall charger
- Dash mount disc
- FM Transmitter antenna
- Aux cable
- Anti-glare screen protector

Install the Mount

Note: Follow all local regulations governing the placement of the mount.

1. Select an area with a line of sight to the sky and GPS satellites.
2. Clean and dry the mounting area.
3. Remove the suction cup protective film.
4. Attach the two pieces of the mount together and lock into place.
5. Adjust the angle of the mount.
6. Pull the suction cup lever up to release suction.
7. Plug the power cord into the mount and the vehicle's 12-volt power source.
8. Place and hold the mount suction cup against the mounting surface.
9. Press the suction cup lever down until it snaps into place.
10. Snap the tablet onto the mount.
11. Adjust the tablet so that it can be easily seen and does not block the driver's line of sight.

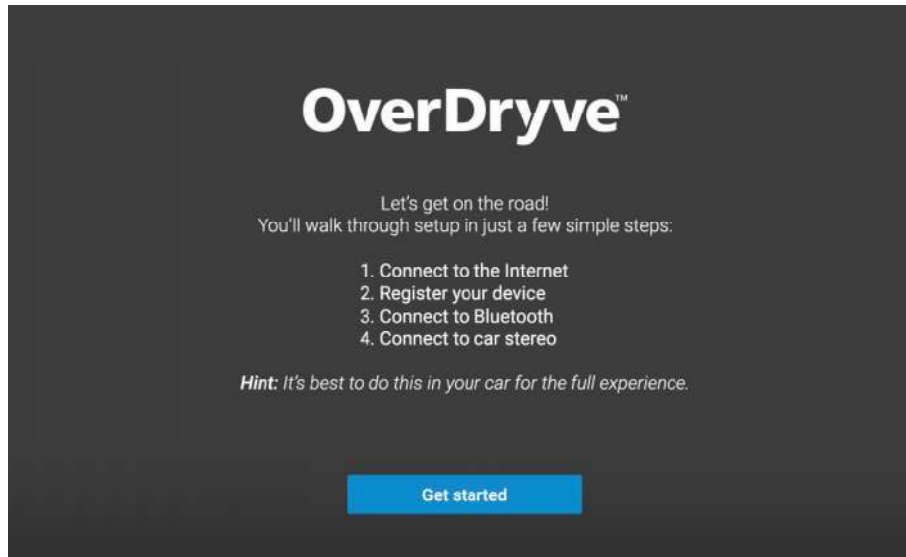

OverDryve™ Tablet

OverDryve™ Smart Mount

- **Connect to the Internet**
Enable the Wi-Fi hotspot on your smartphone or other in-vehicle device and then connect OverDryve.
- **Register your device**
Register with Rand McNally for updates and support.
- **Connect to Bluetooth**
Enable Bluetooth on your smartphone and pair OverDryve to enable hands-free calling and texting while you're on the road.
- **Connect to your car stereo system**
Listen to calls and stream music through your car stereo system by connecting OverDryve through one of three methods:
 - AUX cable (provided) for cars with an AUX jack
 - FM transmitter with antenna (provided, attaches to smart mount)
 - Hardwire (see certified installer)

NOTE: If your device has not been able to detect your location, you may be asked to set your time zone.

Main Menu

- 1 Messaging
- 2 Phone
- 3 Navigation
- 4 Cameras
- 5 Monitoring
- 6 Entertainment
- 7 Smart Assistant

3. Messaging

Pair your iPhone or Android phone to OverDryve via Bluetooth to send texts hands-free. Tap the Messaging button and the Smart Assistant will ask who you would like to text. Speak the name of any of your contacts. The Smart Assistant will prompt you for your message, and then ask you if you would like to send. Smart Assistant can also read back text messages you receive.

The Smart Assistant is also available by tapping the mic button.

4. Phone

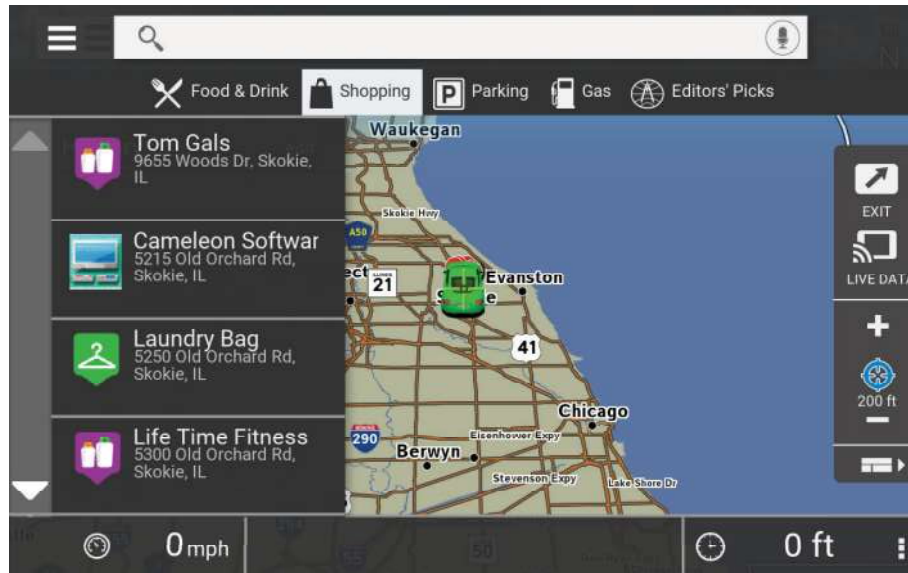

Pair your iPhone or Android phone to OverDryve via Bluetooth to make calls hands-free. Tap the Phone button and the Smart Assistant will ask who you would like to call. Speak the name of any of your contacts. The Smart Assistant will place the call. Smart Assistant can also answer phone calls you receive.

The Smart Assistant is also available by tapping the mic button.

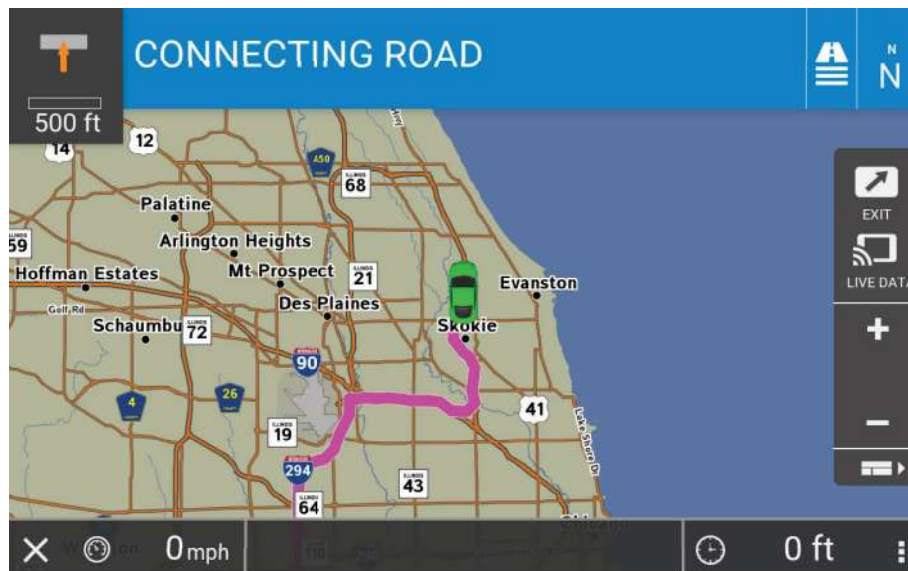

5. Navigation

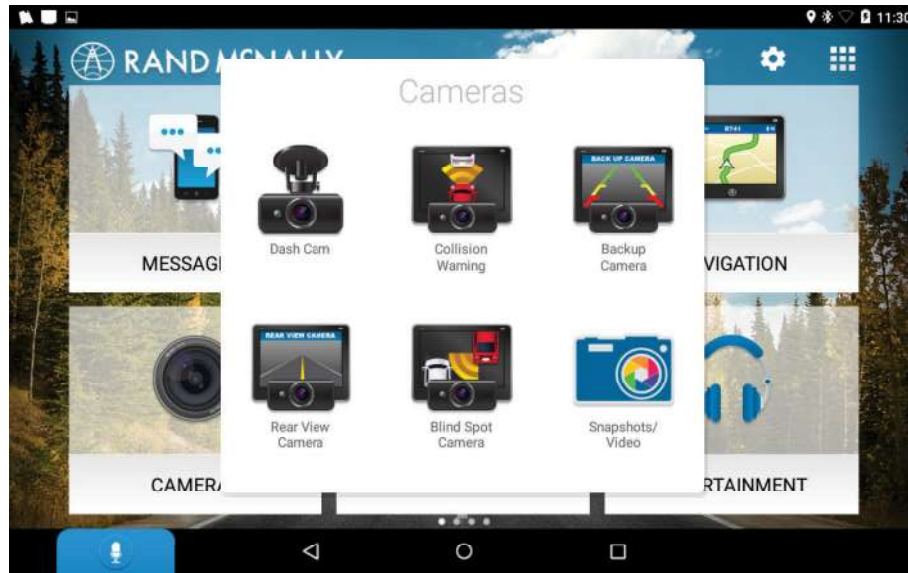

Tap the search bar at the top of the screen to type in any address, or search by keyword. Tap any of the categories to search for specific types of destinations.

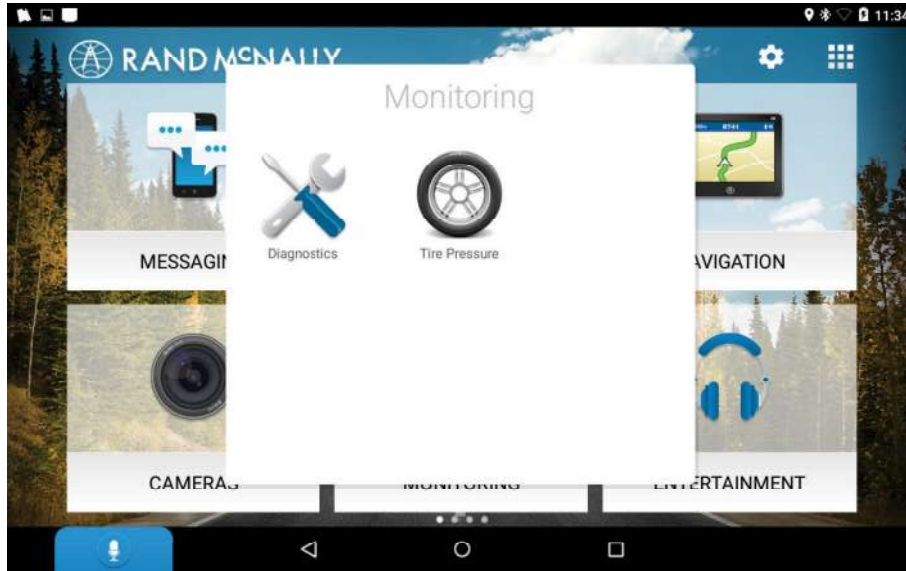

Once a destination is entered, tap “Start Navigation” to begin the route. The blue bar at the top of the screen directs you to the next maneuver.

For more information, see the onboard help within the Navigation app.

Your OverDryve tablet includes a dash cam on board, in the back of the device. You can also connect other camera accessories to OverDryve, via the AV in port in the smart mount. A Wi-Fi backup camera is sold separately.

View diagnostics and engine stats for your vehicle with the OBDII plug-in, available as a separate accessory. The OBDII device plugs in to the port under your dashboard, on the driver's side. Pair it with your iPhone or Android phone via Bluetooth and download the free app to view engine data in real time.

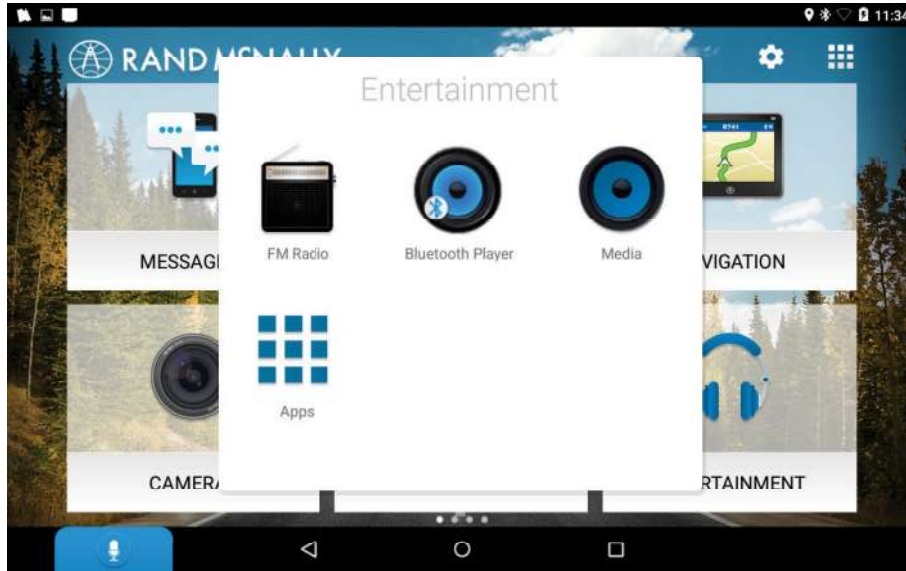

Check your tire pressure and receive warnings about low pressure with the Tire Pressure Monitoring System, available as a separate accessory. Screw the caps onto each of your tires and pair the receiver with your iPhone or Android phone via Bluetooth. Download the free app to view tire pressure and temperature.
