

## What's in the box

- Device
- Charging Cable

## How to Set Up the Device

1. Unlock your phone and turn on Bluetooth.
2. Connect the device with your phone through Bluetooth.
3. Follow the setup instructions on your phone to finish the setting up.

## How to Charge the Device

1. Plug the Charging Cable into a USB power adapter.
2. Plug the adapter into a power outlet. Or plug the charging cable into a USB port directly.
3. Position the back of your device on the charger, and you'll see the battery charging icon on the screen of the device.

## Safety, Warranty, & Regulatory Guide for G3MP5

This booklet provides important safety, regulatory, and warranty information that you should read before using your G3MP5.

### Basic Safety

#### **WARNING: HEALTH AND SAFETY INFORMATION, READ BEFORE USE.**

To avoid damaging your device, accessories, or any connected devices and to reduce the risk of personal injury, discomfort, property damage or other potential hazards, follow the precautions below and those found in the G3MP5 Safety Information at **Settings > Device Info > Regulatory Info**.

- Handle your G3MP5 with care. You may damage the G3MP5 or the battery if you disassemble, drop, bend, burn, crush, or puncture your G3MP5. Do not use a G3MP5 with a cracked screen or damaged enclosure. Be sure the charging cable and G3MP5 are well-ventilated when in use or charging. Using a damaged G3MP5, damaged cables or chargers, or charging when moisture or debris is present, may cause overheating, fire, electric shock, injury, or damage to your G3MP5 or other property. Do not charge the G3MP5 when wet or in direct sunlight. *Your G3MP5 works best in ambient temperatures between 14° and 113° F (-10° and 45° C) while wearing it, 32° and 104°F (0° and 40°C) while charging, and should be stored between ambient temperatures of -4° and 113° F (-20° and 45° C). Do not expose the G3MP5 to temperatures above 113° F (45° C) as this may damage the G3MP5, overheat the battery, or pose a risk of fire.*

- This G3MP5 must be used with a certified AC adapter with Limited Power Source (LPS) output per IEC 60950-1 and PS1 classified output per IEC 62368-1, rated: 5 Volts DC, at least 0.5 Amp. Only charge this G3MP5 with the included charging cable or compatible charging accessories, which are available on the Fitbit Store or at Fitbit authorized resellers. Failure to use compatible charging accessories can cause fire, electric shock, injury, or damage to the G3MP5 and the accessories.
- Do not place metallic or magnetic objects on the exposed pins of the charging cable when it is plugged in, as this could cause heating of the object or charging cable.
- Strangulation hazard. This device is not a toy. Children have been strangled on cords. Keep charging cables out of the reach of children (more than 3 feet (0.9 meters) away).

## **HEALTH RELATED FUNCTIONS**

Your G3MP5 and its pedometer, sleep, exercise, heart rate, and associated fitness application functions are not medical devices and are intended for information purposes only and should not be used as a substitute for medical judgment. They are not designed or intended for use in the diagnosis of disease or other conditions, or in the cure, monitoring, mitigation, alleviation, treatment, prediction, or prevention of disease or other conditions, or as compensation for any injury or disability.

## **BATTERY**

- This G3MP5 contains a lithium-ion battery, which is a sensitive component that can cause injury if damaged. Do not attempt to remove the battery. Use of a non-qualified battery and improper disposal may present a risk of fire, explosion, leakage, and/or other hazards. Do not open, crush, heat above 140° F (60 °C), or incinerate.

## **DISPOSAL & RECYCLING**

Dispose of and transport your device, batteries, and accessories according to local environmental and transportation regulations. Do not dispose of them in normal household waste.

## **SKIN IRRITATION**

Some people may experience reactions to materials, such as nickel or latex, found in wearable items that are in extended contact with the skin. This can be due to allergies, the presence of skin irritants (like soap, sunscreen, or sweat), or other causes. Keep your G3MP5 clean and dry and do not wear it too tightly. Periodically remove the G3MP5 for an hour after extended wear

to reduce the chance of skin irritation. Remove the G3MP5, stop use and consult a physician if you experience skin irritation or if wear or fit of the device causes any discomfort.

## Proper Handling and Usage

### CARE AND CLEANING

Turn off your G3MP5. Wipe your device with a damp cloth (no soap). Let air-dry or wipe with a non-abrasive cloth.

### DUST AND WATER RESISTANCE

Your G3MP5 is designed to comply with dust and water protection rating IP68 under IEC standard 60529 and water protection rating 5 ATM under ISO Standard 22810:2010 when it leaves the factory, but it is not dust proof or water proof. Dust and water resistance are not permanent conditions and are diminished or lost over time due to normal wear and tear, device repair, disassembly, or damage. Dropping your device may result in loss of dust or water resistance. Liquid damage voids the Limited Warranty (see below). Do not expose your device or other accessories to liquids or to dust, which can cause short circuit and/or overheating. The charger and other accessories, including some G3MP5 bands are not dust or water resistant and should not be exposed to either.

## Service & Support

If you send your G3MP5 for service, you might receive a replacement in place of your original G3MP5. Where permitted by law, goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods. If the goods are capable of retaining user-generated data, then the repair or replacement may result in loss of the data.

## Regulatory Information

Regulatory information, certification, and compliance marks specific to G3MP5 can be found on your device under **Settings > Device Info > Regulatory Info** and/or on the back and/or in the band attach area of your device.

Manufacturer address: Google LLC, 1600 Amphitheatre Parkway, Mountain View, CA 94043.

### EMC COMPLIANCE STATEMENT

Important: This device, charging cable, and other in-box accessories have demonstrated Electromagnetic Compatibility (EMC) compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components

to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

## **RADIO FREQUENCY EXPOSURE**

Radio frequency exposure information can be found on your device under **Settings > Device Info > Regulatory Info**

## **FCC & ISCED CANADA REGULATORY COMPLIANCE**

This device complies with Part 15 of the FCC Rules and ISCED license-exempt RSS standard(s). Operation is subject to the following 2 conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'ISCE Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage.
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
