Solder Board-Component View 6	 A photograph showing a black rectangular component, likely a battery or sensor, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: one in centimeters (0 to 100) and one in millimeters (0 to 100). The component is approximately 100mm long and 40mm wide. It has a gold-colored connector on the left side and two gold-colored circular pads on the right side.
Antenna View	 A photograph showing the internal components of a device, including a battery, a BLE antenna, and various electronic components. A red box labeled "BLE Antenna" points to a small, circular, silver-colored component. Another red box points to a black rectangular component, which is likely the battery. The device is shown from the back, with the metal casing visible.
