Product specifications: //////////

Specification item	3-mode screen display mechanical keyboard
Product number:	FV-98
Keyboard interface:	TYPE-C
Connection method:	Wired+2.4G+BT
Luminous Type:	RGB Backlight
Product type:	Mechanical shaft
Number of keys:	98 KEY
Button life:	20 million times or more
Operating Voltage:	3.7V DC
Battery capacity:	2000mAh
Product Size:	390* 150*50mm (± 2mm)
No impact button:	Support full key conflict free,
Keycap material:	ABS
Product line length:	1500mm±30mm
Multimedia:	Support FN+12 key combinations
System compatibility:	Mac OS X10, 12, iOS10 or later

**FCC Warning:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Caution:** Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
