Subject: R727 Wireless LAN module

To Whom It May Concern:

Our product, Model R727 with FCC ID: EJE-WB0102, integrates Intel Wireless LAN module, Model 8265D2W, FCC ID: PD98265D2 which is approved by FCC without any hardware and software modification. The wireless LAN functions of R727 rely on mentioned Intel Wireless LAN module. Therefore, FCC requirements, especially related to DTS-UNII device functions and passive-active scan plan attestation, are covered by attached Intel's letters.

Attached letters from Intel

- Model 8265D2W Wireless LAN mini-PCIe Card
- Software Security Description – KDB 594280 D02v01r02 Section II

Thank you,
