Battery installation:

OFF ON

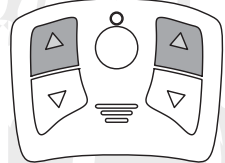

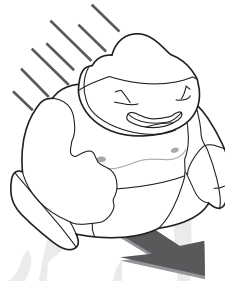

Use the screw driver, remove the battery box cover and fill 4 x 1.5V AA RO6 Batteries.

Use the screw driver, remove the battery box cover and fill the 6F22 9V Battery.

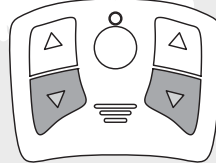

Remote Control Bottom

Movement:

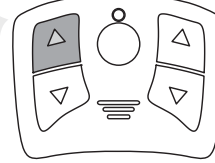

Forward

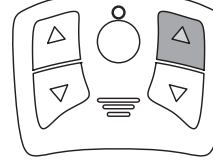

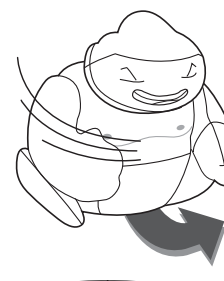

Backward

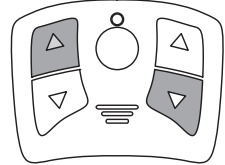

Forward Left

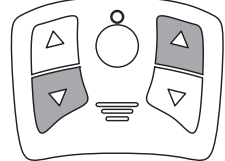

Forward Right

Spinning

or

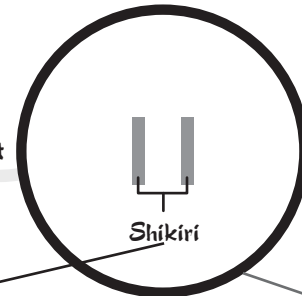

Note: Use on different surfaces may effect the units performance.

Rule:

A bout is won by forcing the opponent out of the inner circle or by throwing him in the DOHYO. To lose the match it is not necessary to fall in the circle or to be pushed completely out. The rikishi who touches the ground with any part of his body, his knee or even the tip of his finger or his top-knot, loses the match. Or he need only put one toe or his heel over the straw bales marking the circle.

West

Shikiri

East

Dohyo

The toeing-the-mark ritual that precedes the start of every bout in sumo.

Caution: To prevent bursting, do not use a high pressure pump such as an air compressor. Do not over inflate
