Schematic diagram of the product

Product Model: YC-573042

INSTRUCTION MANUAL

please read carefully our instruction paper before using product, and keep instruction paper for future use

Charging instructions

Find the position of the charging contact at the bottom of the product, and attach it to the charging contact with the supplied USB magnetic charging cable. It can be charged with a USB charger or a computer USB interface. The blue light flashes when charging, and the blue light stays on when it is fully charged.

Can be used with any mobile phone charging head. Please charge the product before use.

Battery use instructions

- 1. This product uses a built-in rechargeable lithium battery. After two or three times of charging and discharging, the battery can fully exert its performance. When the product is charged, it should not be exposed to high temperature and humidity.
- 2. Disconnect the charger after the product is fully charged to prevent overcharging and shorten battery life.
- 3. Disposal: After the product is scrapped, it should be disposed of according to the waste electronic products and recycled to the corresponding old electronic recycling station. This product is not suitable for ordinary garbage disposal.

Attention items

- 1. This product only for adults, please keep it away from children.
- 2.It is recommended to use with condoms for your health.
- 3.It is advisable to use it with a lubricant for protecting your delicate skin.
- 4. Please keep the product in a cool and dry place.
- 5.Please stop using it immediately when you feel unwell during use.
- 6.Do not clean the product with cleaners containing alcohol,

Maintenance and maintenance

- 1. It can be powered by the charger interface, but the current output of the charger is related to the speed of charging. It is recommended that you use a 3.7V800mA charger to avoid damage caused by improper charging.
- 2. Please clean thoroughly before and after use.
- 3. Wash with water after use, mix with shower gel or neutral detergent, and put it in a ventilated place to dry. Do not use detergents containing gasoline or acetone to corrode silicone products.
- 4. Store the product in a cool, ventilated, dry place. Ensure that the product is protected from direct sunlight, high temperatures, heavy pressure, moisture and pollution.

Product parameters

Product Name: VIBRATION DILDO

Material: Silicone + ABS

Color: Subject to the product packaging label

Rated voltage: 3.7V Rated current: 400mA Continued: 40 minutes Noise range: 65 decibels Waterproof: Submersible Power Type: Rechargeable Vibration speed: Seven modes Package contents: vibrator, USB charging cable, manual population over 18 years old

Key Description

MAIN POWER BUTTON:

- Long press 1.5 seconds: () the power button to start/stop the host function;
- · Short press () the power button to switch between seven frequencies, which can be cycled;

REMOTE CONTROL:

- Long press : 1.5 seconds on: to turn on/off the remote control standby function;
- Short press to switch between seven frequencies, which can be cycled;

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used exposure condition without restriction.
