Sierra Wireless, ULC

Date: February 19, 2024

Module Approval Checklist FCC ID: N7NRC71A

Item	Requirements	EUT
1.	The radio elements must have the radio	The module is equipped with its own shielding case.
	frequency circuitry shielded. Physical	
	components and tuning capacitor(s) may be	
	located external to the shield, but must be on	
	the module assembly	
2.	The module must have buffered	The module has buffer modulation / data inputs.
	modulation/data inputs to ensure that the	
	device will comply with Part 15 requirements	
	with any type of input signal	
3.	The module must contain power supply	The module has its own power supply regulation.
	regulation on the module	
4.	The module must contain a permanently	Not applicable to licensed modules.
	attached antenna, or contain a unique antenna	
	connector, and be marketed and operated only	
	with specific antenna(s), per §§ 15.203,	
	15.204(b), 15.204(c), 15.212(a), 2.929(b)	
5.	The module must demonstrate compliance in a	The module was tested on evaluation board, and is not
	stand-alone configuration	inside of another device during testing
6.	The module must be labeled with its	The module transmitter will be labeled with its own FCC
	permanently affixed FCC ID label, or use an	ID, and for OEM integration the integration manual
	electronic display	contains labeling instructions for the host device per
		Part 15.212 (vi)
7.	The module must comply with all specific rules	The module approved transmitter complies with all
	applicable to the transmitter, including all the	applicable rules and the integration manual contains
	conditions provided in the integration	any specific requirements addressed to the integrator
	instructions by the grantee	and/or to the end-user of the final end-product.
8.	The module must comply with RF exposure	The modular transmitter complies with RF exposure
	requirements	requirement.
