
P2 SMARTPAD connects to a POS system to provide payment interface during transaction process, supports reading contactless card, magstripe card, smart card, 1D/2D code and entering password.

Support following methods to power on the device:
1) Power adapter, by connecting it to the DC port of the communication cable.
2) Powered USB.
3) PoE(Optional).
4) Powered RS232.

* The product has normal version and advanced version with 4G function, the SIM card holders will only appear in the advanced version.

* Optional: Stylus Pen & Camera
(Used for scanning 1D/2D barcodes or taking photos; To scan barcodes or take photos, point the object at the camera.)

- Place the AC plug into the AC outlet that corresponds to the marked input on the accessory power adapter.
- This is a Class B product. In the living environment, this product may cause radio interference. In such cases, the user may be required to take practical measures against the interference.

- Avoid installation or use during periods of lightning. Otherwise, there is risk of being struck by lightning.
- Turn off the power immediately if you notice unusual odors, overheating, or fumes.
- When you notice an unusual smell, overheating or smog, turn off the power immediately.

- Do not use in extremely hot or cold environments, such as near fires or lit cigarettes.
- Do not drop, throw or bend the product.
- Use in a clean and dust-free environment to avoid small items falling into the terminal.
- Do not use near medical equipment without permission.

The Company is not responsible for the following situations:
- Damage caused by use and maintenance not performed under the conditions described in this Guide.
- Damage or problems caused by options or consumables (not the original or approved product supplied by the Company); (without the Company's consent, the user has no right to make product modifica tions or changes)
- The operating system of this product supports the official system update. If the user has installed a third party ROM system or used a cracking method to modify the system files, it may lead to system instability, as well as present security risks and threats.

Due to product updates, some details in this document may not conform to the product, please refer to the actual product. The interpretation of this Guide is subject to the Company. We reserve the right to modify this Guide without prior notice.

This symbol means that it is forbidden to dispose the product of with normal household waste. At the end of the product life cycle, waste equipment should be taken to designated collection points, returned to the distributor when purchasing a new product, or contact your local authority representative for detailed information on WEEE recycling.

Hereby,Shanghai Sunmi Technology Co., Ltd.declares that the Smart POS Terminal (Model NO .:T6A10) is in compliance with the essential requirements and other relevant provisions of RED 2014/53/EU.The full text of the EU declaration of conformity is available at the following internet address:

The description of accessories and components, including software, which allow the radio equipment to operate as intended, can be obtained in the full text of the EU declaration of conformity at the following internet address: www.sunmi.com

The 5150-5350MHz band is restricted to indoor use in the UK and for the following countries.

For more technical specifications, please visit:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with ISED Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISDE Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:(1) L'appareil ne doit pas produire de brouillage, et (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

This equipment complies with RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

ce matériel est conforme aux limites de dose d'exposition aux rayonnements, CNR-102 énoncée dans un autre environnement cette eqipment devrait être installé et exploité avec distance minimale de 20 entre le radiateur et votre corps.
