1、Product Abstract

Tuya AVS voice module VWRK4 is based on the powerful RockChip 3308 IC which integrated with 4-Core 64 bit A35 ARM Core. The Module is integrated with voice wake & noise cancellation algorithm and which can be applied in the IoT device/gateway/smart speaker. The CPU RK3308's frequency is 1.3GHz, which can provide powerful computing ability. Also, the module is integrated with the RF chip RTL8723DS which contains WiFi Sing-band 1X1+BluetoothBR/EDR/BLE4.0 This can make it easy to connect to the Tuya IoT platform.

1.1 Features

- ✧ High powerful ARM 4-Core 64 bit A35 RochChip 3308 CPU
- ✧ Frequency : 1.3GHz
- ✧ Work voltage: 4.2-5.5V (5V default)
- ✧ Peripheral : 2*Uart, 7*MIC, RGB666, 1*SPI, 2*I2C, 2*USB, GPIOs, 3*ADC,
- ✧ Antenna : IPEX
- ✧ Sampling Rate:16K/16bit
- ✧ Audio Feature
 - 1) 4 ways mic pickup, stereo playback.
 - 2) 6 ways mic pickup, single channel playback.
 - 3) Audio output: stereo HPOUT and stereo LINEOUT
 - 4) Audio AUX IN: support
- ✧ Entertainment :

Approved : amazon music, audible, iHeartRadio, TuneIn
- ✧ Skill : All the skills contains in Alexa. For example:

Newest arrivals, Business & finance, Connected Car, Education & Reference, Food & Drink, Game & Trivia, Health & Fitness, kids, lifestyle, local, Movies & TV, Music & Audio, News, Novelty & Humor, Productivity, Shopping, Smart Home, Sports, Travel & Transportation, Utilities, Weather.

1.2 Applications

- ✧ Smart household and home appliances
- ✧ Smart Device
- ✧ Net Gateway Control
- ✧ Voice Control Panel

2、Module Interfaces

2.1 Dimensions and Footprint

The Module has four rows of pins with 1mm Pin Width and 1.5mm pin spacing, the total number of pins is 82, and its dimensions is 35mm*35mm*3.2mm (W*L*H) , Figure 2-1 shows the Dimension views.

Note:

The default dimensional tolerance is $\pm 0.35\text{mm}$.

Figure 2-1 Dimensions of VWRK4

The total pins is 82 and the opposite side has the same number pins, one side is 20 and the other is 21. Figure 2-2 shows the footprint views.

78	AP_RTS	I/O	UART1 RTS PIN / General IO Pin	
79	AP_RX	I/O	UART1 RX PIN / General IO Pin	
80	AP_TX	I/O	UART1 TX PIN / General IO Pin	
81	RST	0	The System HardWare Reset Pin	
82	ADC_KEY_IN1	AI	Analog of ADC Input	

Note :

- 1 . P indicates power supply pins, I/O indicates input/output pins, and AI indicates analog input pins, AO indicates analog output pins.
- 2 . RST is only a hardware reset pin.
- 3 . UNO_TX/RX are user-side serial interface pins, can be used for debug the system.

3、Electrical Parameters

5、Antenna Information

5.1 Antenna type

VWRK4 module uses the on board IPEX connector to connect with the external FPC antenna.

5.2 Reduce Antenna Interference

For a better performance, some suggestions to the users:

- A. The distance between the module antenna and other metal parts must be at least 15mm.
- B. If you use the IPEX Antenna, The Following options are some advice you should pay attention。

IPEX ANT interface

1 : Place the IPEX interface near the outline of the board.

2 : No shield should cover on the IPEX interface.

These suggestions are for the extend ANT interface pin used for IPEX ANT.

5.3 FPC Antenna

VWRK4 module can use an external IPEX antenna by the on board IPEX connector.

The FPC antenna is designed by Tuya cooperation, and manufacture by Dongguan UB

electronic company.

The FPC Antenna is together with the VWRK4 module. if the costumer use their own new Antenna, the FCC should be tested with the new Antenna.

The following table is the main technical specifications of the FPC Antenna.

Items	Main technical specifications
Manufacturer	UB
Product model	UB01C07F3D1388A
Frequency Range (MHZ)	2400~2500
Impedance(Ω)	50
AVG Gain(dBi)	2.13
VSWR	≤ 1.92
Admitted Power	1W
Polarization	Line
Connector Type	RF Cable+Terminal
Antenna Base	FPC
Operating Temp	-20C°~+70C°
Storage Temp	-20C°~+70C°

The Figure 5-5 is the Picture of the FPC antenna. All the features of the FPC antenna can be reviewed from the “The Specification of the FPC antenna”.

6、Packaging Information

6.1 Mechanical Dimensions

The following is the mechanical dimensions of the VWRK4 module, the width and the length are 35mm*35mm.

Figure 6-1 VWRK4 mechanical dimensions of top side

Figure 6-1 VWRK4 mechanical dimensions of bottom side

Note : The Pads beyond the dimensions are cutted and half left, if you want to design the package of the VWRK4, be careful of the pad dimensions.

6.2 Product instructions

Appendix: Statement

Federal Communications Commission (FCC) Declaration of Conformity

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled rolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Important Note

This radio module must not installed to co-locate and operating simultaneously with other radios in host system except in accordance with FCC multi-transmitter product procedures. Additional testing and equipment authorization may be required to operating simultaneously with other radio.

The availability of some specific channels and/or operational frequency bands are country

dependent and are firmware programmed at the factory to match the intended destination. The firmware setting is not accessible by the end user.

The host product manufacturer is responsible for compliance to any other FCC rules that apply to the host not covered by the modular transmitter grant of certification. The final host product still requires Part 15 Subpart B compliance testing with the modular transmitter installed.

The end user manual shall include all required regulatory information/warning as shown in this manual, including: This product must be installed and operated with a minimum distance of 20 cm between the radiator and user body.

This device have got a FCC ID : 2ANDL-VWRK4.The final end product must be labeled in a visible area with the following: "Contains Transmitter Module FCC ID:2ANDL-VWRK4"

This device is intended only for OEM integrators under the following conditions:

- 1) The antenna must be installed such that 20cm is maintained between the antenna and users, and
- 2) The transmitter module may not be co-located with any other transmitter or antenna.

As long as 2 conditions above are met, further transmitter test will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements required with this module installed.

Declaration of Conformity European notice

Hereby, Hangzhou Tuya Information Technology Co., Ltd declares that this module product is in compliance with essential requirements and other relevant provisions of Directive 2014/53/EU,2011/65/EU.A copy of the Declaration of conformity can be found at <https://www.tuya.com>

This product must not be disposed of as normal household waste, in accordance with EU directive for waste electrical and electronic equipment (WEEE- 2012/19/EU). Instead, it should be disposed of by returning it to the point of sale, or to a municipal recycling collection point.

The device could be used with a separation distance of 20cm to the human body.
