

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The assembly consists of a clear, teardrop-shaped plastic housing, a metal base, and a small circuit board with wires. The components are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 1	 A photograph showing the solder board component. The component is a small circuit board with several electronic components, including capacitors and resistors, and two wires (one white, one blue) extending from it. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 2	 A photograph of a small, circular electronic component, likely a microcontroller or sensor, mounted on a blue textured surface. The component is white with various electronic components visible on its surface. It is connected to two thin wires, one black and one white. A ruler is placed horizontally below the component, showing measurements in millimeters (mm) from 0 to 100. The component is positioned approximately between the 40 mm and 60 mm marks.
Solder Board-Component View 3	 A photograph of a small, circular electronic component, similar to the one in View 2, mounted on a blue textured surface. This component is more complex, featuring several green and black components on its surface. It is connected to two thin wires, one black and one white. A ruler is placed horizontally below the component, showing measurements in millimeters (mm) from 0 to 100. The component is positioned approximately between the 40 mm and 60 mm marks.

Solder Board-Component View 4	
Solder Board-Component View 5	

Solder Board-Component View 6	 A photograph showing a small electronic component, likely a WiFi module, mounted on a blue perforated solder board. A black ruler with white markings is placed next to the component for scale. The ruler shows markings for 10, 20, and 30 mm. The component has a gold-colored base and a black chip with some text on it.
Antenna View	 A photograph showing a clear, teardrop-shaped antenna component. A red line points from a label "WIFI Antenna" to the antenna. The antenna has a clear plastic body and a metal base with two wires (one white, one green) extending from it. The background is a blue textured surface.
