## Attention:

- 1. Handle with care. Do not throw, sit on, or store the SoundPods under heavy objects. Keep away from high temperatures and environments with high humidity. Store in an environment with a temperature between -10°C ~ 60°C.
- 2. Keep away from high frequency transmitting equipment such as WIFI routers which may cause sound interference or disconnection.
- 3. Please keep the earbuds within a 10m (33 ft) range of the connected device.
- 4. This product is a compatible with both iOS® and Android™ devices.

### FCC Statement:

measures:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

· Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
