Subject: Declaration of Compliance with SAR Requirement, CSI Wireless Inc, LT10R – Asset Location Tag.

We hereby indicate that the product LT10R – Asset Location Tag is considered to be a portable transceiver. A SAR test has been performed on the LT10R and found that the device can be body worn at a distance of 2 cm from the body. The Location Tag will be marketed as a body worn device by years end. At that time a plastic belt clip/holster will be designed that will provide this body separation. The belt clip will not contain any metallic components.

A statement concerning operating conditions will be found in the user's manual to provide end users with sufficient information for satisfying RF exposure compliance.

Sincerely,

Abdulrahman M. Kassim
Hardware Design Specialist
