Re: T-Rex IQ Labelling Request

To Whom It May Concern,

We would like to request the movement of the FCC ID and IC ID into the User's Manual for this product based on the details provided below.

Product Name: T-Rex IQ
FCC Grantee Code: 2ASYW, Product Code: -B01001K
ISED Company Number: 24934, Unique Product Number B01001K

This product is installed in environments of all climates with various pests/rodents (mice, rats, insects, lizards, snakes, toads, etc.) entering the bait stations. Product labels quickly deteriorate in these environments. As the product requires a smartphone application to configure, we propose e-labelling for the product.

Pursuant to FCC § 2.935 and ISED RSS-Gen Annex B, we would propose moving the product identifiers into the User's Manual and Product Packaging instead of marking the product directly. Thank you in advance for your consideration.

Date: August 20, 2019
