RE: FCC ID: QTKRH-54\_ATCB001717  
Attention: Alison Kingston

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the reports do not provide the ERP and EIRP powers of this device. Please provide a report that gives the ERP and EIRP of the device and please make sure that the values are within 5% of those recorded in the SAR report.
2. FYI – please note that the FCC has stated that verification needs to be done at 1900MHz and 835MHz not 800 and 1800MHz. Please be aware of the possibility of dismissal due to this error.
3. Please provide that calibration data for the verification dipole and the probe used in the SAR report. Please note that further evaluation of the SAR report may result due to response to this comment.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
