Hi Y.K.:

+ symbol can not be part of FCC ID number. Please provide / revise the new  
FCC ID number.

Best Regards

Mike Kuo

Hi Mike,

Did you have a nice weekend?

I am really sorry for inconvenience you.

Enclosed please find revised documents to clear your requirement.  
I do not send manual for this project, because I cannot find modify items.  
If you need more information and/or documents, please inform me that.

Have a nice week!

Best Regards,

Y. G. Gwon

Hi Y.K.:

FCC ID number PBCFHD-254 has been used before. Please assign a new FCC ID number for this device and update all associated attachments.

Best Regards

Mike Kuo

Hi Y.K.:

- 1) Please provide additional external photos to show all external connectors.
- 2) Even the AC/DC adapter will not be sold with the device, you still need to provide the external and internal photos of AC/DC adapter that you used during the tests.

Best Regards

Hi Mike,

Thanks for your comments regarding subject project.

I would like to answer your kind comments step by step as follows. 1. I am sorry. Enclosed please find a file. 2. The EUT has connectors for USB, IEEE1394 and DC input port. The DC input port maybe connected to the AC/DC Adapter. So, we connected the DC input port for the EUT with AC/DC Adapter. 3. The EUT be powered by USB port or IEEE1394 port from a personal computer, but the reason has the DC input port want to supply additional voltage, if the EUT need more current to operate functionally in certain case. Usually the EUT was operated by USB or IEEE1394 port only, so user does not need to connect DC input port. The applicant does not supply AC/DC Adapter with the EUT. In this case we have to submit the photo for the AC/DC Adapter. Please confirm me your smart opinion.

Best Regards,

Notice\_content

-----

Question #1: No external photo file was submitted. Please provide it.

Quest

ion #2: Page 7 of test report indicates that "Data were continuously read and written via USB and adaptor was connected to the EUT". What is this adaptor that you are referring ? Please explain.

Question #3: Does this Packet Hard Disk Drive be powered from AC/DC adapter. If so, please also provide the internal / External photo of AC/DC adapter.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
