Federal Communications Commission,  
via Electronic Filing

Attention: Steve Dayhoff  
Equipment: FCC ID: ALH31103110 EA98738 Corr. 16709

Steve:

In reply to the referenced e-mail:

1. This Transmitter is intended as a Repeater. The device is normally rack-mounted. Its antenna is professionally installed in a fixed-mounted location, on an outdoor permanent structure.
2. The relevant pages of the Manual containing the R. F. Exposure statements are attached. Since this device is a repeater, it will NOT be used in a vehicle-mount configuration.
3. FYI: Thank you.

We trust the foregoing and attached now meet the requirements of the Commission.

Personal regards,

MORTON FLOM, P. Eng.
