## Statement and explanations

GD201E is an LTE OBDII Dongle product with BLE function and WWAN certification module (module BG95-M3 (Module FCC ID:XMR201910BG95M3,Date of Grant:09/30/2019)).

The LTE Cat M1 Module is installed in the host, which has no impact on the RF performance. Considering that the antenna is designed for the host, when the module is integrated into the host, we conducted an EMC test on the host, and retested RSE in RF.
