Dear To whom it may concern,

The difference between the basic model and variant model is connector.

The basic model is SP2 PE, and variant model is QX 23 MY depend on connector difference.

Depending on the variant, the H/W version and PCB design are same, but only the connector is different. And the other thing is the same.

The difference description between models is shown in the table below.

| Product name | Model name | Basic Model | Variant model | Difference |
|------------------|------------|-------------|---------------|------------------------|
| Shark antenna CE | SP2 PE | O | - | Connector: MG614130-4 |
| | QX 23 MY | - | O | Connector: HKC06-12721 |
