

Subject: ALH24572110 EA93740

I need some help.

We have sent our first electronic filing from Flom Associates for a Kenwood ALH24572110 EA93740.

Our dialup connection was broken several times during the course of the transmission.

Is there a way to see what exhibits are on your system? We will retransmit anything missing.

Thanks,

Bill Graff

Director of Engineering
