

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Model: AMP25B-1.1/28

EUT Housing and Board View 1	
EUT Housing and Board View 2	

Solder Board-Component View 1	 A photograph showing a small green printed circuit board (PCB) component with a white cable attached. The component is positioned next to a metal ruler for scale. The ruler has markings in centimeters (0 to 25) and millimeters (0 to 20). The background is a blue textured surface. A small yellow label is attached to the white cable.
Solder Board-Component View 2	 A photograph showing the same green PCB component and white cable from a different angle. The component is positioned next to a metal ruler for scale. The ruler has markings in centimeters (0 to 25) and millimeters (0 to 17). The background is a blue textured surface. A small yellow label is attached to the white cable.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'View 3', placed on a blue textured surface. The component is rectangular and populated with various electronic components, including a central integrated circuit, several capacitors, and resistors. A white flexible cable is soldered to the board and extends upwards. Two metal rulers are positioned for scale: one vertically on the left showing centimeters from 1 to 13, and one horizontally at the bottom showing centimeters from 1 to 19. The component's length is approximately 10 cm.
Solder Board-Component View 4	 A photograph of the same green PCB component, labeled 'View 4', showing the opposite side. It features a different arrangement of components, including a large integrated circuit and several capacitors. The same white flexible cable is visible, extending from the board. The same two metal rulers are used for scale, with the vertical ruler on the left showing centimeters from 1 to 14, and the horizontal ruler at the bottom showing centimeters from 1 to 20. The component's length is approximately 10 cm.

Model: AMP25B-0.7/34

EUT Housing and Board View 1	 A photograph showing the EUT housing and board from a top-down perspective. The housing is a long, blue cylindrical tube. A white circular board with three mounting holes is placed next to it. A metal ruler is positioned vertically and horizontally for scale. The background is a blue textured surface.
EUT Housing and Board View 2	 A photograph showing the EUT housing and board from a side perspective. The housing is a long, blue cylindrical tube. The white circular board is shown with its internal components, including a green PCB and a blue cylindrical component. A metal ruler is positioned vertically and horizontally for scale. The background is a blue textured surface.

Solder Board-Component View 1	 A photograph showing a small green printed circuit board (PCB) component with a circular cutout. A thin, white, flexible cable is soldered to the component. The cable has a small yellow label attached to it. The component and cable are placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters from 1 to 24.
Solder Board-Component View 2	 A photograph showing the same green PCB component and white cable as in View 1, but from a different angle. The component is positioned differently on the blue surface, and the cable is more extended. A metal ruler is again present for scale, showing centimeters from 1 to 24.
