Product Support

# Important Information

This adapter is designed for the use of wireless CarPlay with iPhones running ios 10 or newer through vehicle infortainment systems that have built-in Apple CarPlay. Refer to the next page for how to check if your vehicle has built-in CarPlay.

However, NOT every vehicle with built-in Apple CarPlay is compatible with this adapter. If you encounter any issues while using this adapter, please do not hesitate to contact us.

Function	Convert OEM Apple CarPlay to wireless Apple CarPlay
Compatibility	Car: With OEM Apple CarPlay
	iPhone: Running ios 10 or newer
Control	OEM louchscreen, sleering wheel, and joy stick control
Input Power	USB 5V
Connectivity	WIFI & Bluethooth

### How To Check If A Car Has CarPlay

 Plug your iPhone (running iOS 10 or newer) into the car USB port with the provided lightning cable. If your car has built-in Apple CarPlay, a notification like the one below will pop-up on your iPhone.

 Look for the icons below on the menu of your vehicle's infotainment system. If you see either of the two icons, then your vehicle has built-in Apple CarPlay.

3. If you're unsure whether or not your vehicle has built-in Apple CarPlay, contact your car dealer for further assistance.

# What's in the box?

### **Product Overview**

1. USB Type-C Port: connect to car

2. LED Indicator

- Power on: red light is always on
- Connecting: blue light flashes slowly
- Connected to car successfully: blue light on
- Updating: red and blue lights alternate flashing
- Update successful: white light on

3. Micro SD Slot

4. Reset Button

### How To Install

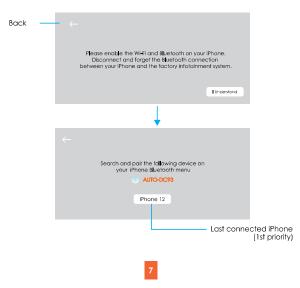

**Note:** If there are multiple USB ports in your car, the adapter should be plugged into the USB port that is for wired Apple CarPlay connection.

### **How To Connect**

- 1. Turn on your iPhone's Wi-Fi and Bluetooth
- 2. Pair your iPhone's Bluetooth with Auto-xxxx
- 3. A pop-up message will appear on your iPhone. Choose Pair-Allow-Use CarPlay.
- 4. Connecting to Wireless CarPlay will take a few seconds.

Note: Before connecting to a new iPhone, please disconnect the previous iPhone.

# Firmware Update

Updating firmware is only recommended when you encounter issues with your product

How To Update: Please check www.rexingusa.com for information on firmware updates.

### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interferenceto radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **Radiation Exposure Statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
