To whom it may concern,

RESULTS APPLICABILITY DECLARATION

We, SRT Marine Systems plc of Wireless House, Westfield Industrial Estate, Midsomer Norton, Bath, BA3 4BS, England declare that the product Iris+ AIS Transceiver / Splitter (428-0007), being a Marine AIS SOTDMA Class B Transceiver, to which this declaration relates, is a Mercury 011-0098 PCBA module placed inside of an enclosure. From an AIS perspective this module is identical to the SRT Cobalt II PCBA module, for which all reports of the Cobalt II 011-0085 PCBA equally apply.

All testing on the Iris product was undertaken on the "Raymarine AIS700 Transceiver" which is an identical product in a different enclosure. The tests were undertaken with serial cabling and interfaces being un-shielded and grouped together resulting in a representation of the worst case being tested.

Signed:

A handwritten signature in blue ink, appearing to read 'PSP', is written over a light blue horizontal line.
