Re: FCC ID: BCR-ATE60-CTE

Allen Telecom, Systems Division is hereby filing this request for confidentiality of the specified items submitted with the application for certification with proposed identifier BCR-ATE60-CTE.

The technical documentation for which confidentiality is sought is:

1. Schematic Diagrams
2. Description of the Unit / Operational Description
3. User Manual / Technical Manual
4. Bill of Materials

The technical documentation is a part of the material supporting the Form 731 application for certification, which this request for confidentiality accompanies.

This information discloses proprietary information and technical data which Allen Telecom would guard from its competitors and would not make available to the public. The proprietary information constitutes a trade secret and is not a part of the product documentation that would be made available to the customers of Allen Telecom.

It would be potentially injurious to Allen Telecom and to its investment in the development of this product to make available to public disclosure the trade secret technical information specified in this request.
