

Instruction Guide

Installing keyboard Hardware

The keyboard can be either installed to a DIN 5-pin port or a Mini-DIN 6-pin port. If you want to install the keyboard to a DIN 5-pin port, you will need a 6-to-5-pin adapter.

The procedure for installing the keyboard to a Mini-DIN 6-pin port is:

1. Turn off your system.
2. Plug the keyboard cable into the keyboard outlet.

The procedure of installing the keyboard to a DIN 5-pin port is:

1. Turn off your system.
2. Attach the cable connector to the adapter.
3. Plug the 6-to-5-pin adapter into the keyboard outlet.

Pin - Number and Signal Assignments of Connectors

PIN	Signal Name
1.	+KBD DATA
2.	Reserved
3.	Ground
4.	+5.0 Vdc
5.	+KBD CLK

Shield Frame Ground

FCC Statement on CLASS B

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instruction manual may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio TV technician for help

Notice:

- (1) The changes or modification not expressly approved by the party responsible for compliance could void the user authority to operate the equipment
- (2) Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.
