RE: FCC ID:DMOHT30UQB

Comments to the Test Reports:

Concurrent with the certification reports for of the European introduction of the equipment the attached Test Reports were made by:

Bundesamt für Zulassungen in der Telekommunikation (BZT)
Talstrasse 34-42
D-66119 Saarbrücken
Germany
Tel. +49-681-598-0

At that time the BZT was a listed and approved FCC test facility. BZT was the central federal German agency responsible for telecommunication approvals and was the predecessor to CETECOM ICT Services GmbH, our current contract test firm.

BZT was appointed to perform the tests in accordance with the requirements contained in the appropriate Commission Rules and Regulations. To the best of my knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards. The test results demonstrate that the equipment complies with all current appropriate technical standards.

I certify that the submitted exhibits properly describe the device for which the equipment authorization is sought. I further certify that each unit manufactured, imported or marketed, as defined in the Commission's regulations, will conform to the samples tested within the variations that can be expected due to quantity production and testing on a statistical basis. All devices imported into the Americas will have affixed to them a label conforming to the description submitted for approval with this application.

Dated this 12th day of June, 2002

Signed by: 

Printed name of authorized signer: Uwe Sattler

Title of authorized signer: Technical Director
