

EKMNL0215

Installation diagram:

Product list:

1 Mini Controller x 1	2 Remots control x 1 (Cr2025 battery inserted)
-----------------------	---

Product Parameter:

Model	U2M4AC112WB
APP	Lotus Lamp X
Language	English / German / Spanish
Operation Platform	Android 4.0 or IOS 9.0 or higher
Input Voltage	DC 5V
Max Output Power	5W
IP Rating	IP20
ISED ID	29171-31MAC864WB
LED Strip	7.5m LED strip
Working Temperature	20-55°C

REMOTE CONTROL

1. LED brightness adjustment / Speed adjustment
2. On/Off buttons
3. LED color buttons (16 colors)
4. Mode: Dynamic mode
5. Mode: Dynamic mode
6. Auto: Auto play
7. Music: Flash music mode or breath music mode

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

INSTALLATION

1. Connect the controller to the light strip
2. Use 5V DC power supply to connect the controller
3. Use the remote control to switch the light color

CE

Disclaimer

Please read through this user manual thoroughly and make sure you following the instruction to use the product properly and safely. If the product damage is caused by misuse if the product damage is caused by the misuse of the user the supplier is not responsible for the damage even when the product is within its warranty period.
