MONSTER™ SMART
ILLUMINESSENCE™

WORKS WITH
RAZER CHROMA RGB™

Monster Smart Illuminessence works with Razer Chroma RGB™

Sync your colors and lighting effects with compatible PC accessories, games, and music!

To enable a whole new world of color, simply connect your device to your local 2.4GHz Wi-Fi network, download the Monster Smart desktop app and the Razer Synapse™ software, and then get creative.

for detailed instructions, see reverse

www.monsterilluminessence.com/chroma/

GET STARTED

1 Go to **https://www.razer.com/synapse-3** to download and install Razer Synapse for your Windows PC. Setup an account and enable Chroma Connect, keep Synapse open.

2 Connect your lights to your local **2.4GHz Wi-Fi network** using the Monster Smart mobile app on your mobile device, follow the pairing instructions in the QSG for your device

3 Go to **www.monsterilluminessence.com/chroma/** and download and install the Monster Smart Desktop App. Open Monster Smart and keep it open.

4 In the Monster Smart mobile app, click on the "Me" icon on the bottom menu bar, then click on the "Scan" icon in the upper right corner

Using the camera on your mobile phone, scan the **Login QR Code** shown in the Monster Smart Desktop App and confirm the login information. This will automatically log you in and sync your Monster Smart account and local smart devices!

5 In your Monster Smart Desktop App, click the "Enable All Devices" slider or individual "Enable Razer Chroma RGB" sliders to add your lighting devices to Razer Synapse

Once enabled, make sure to select the "Zone" you want each Monster Smart Illuminessence light to be assigned to, these zones correspond to zones and effects available in the Razer Chroma Studio

ENJOY

Your Monster Smart Illuminessence devices now work with Razer Chroma RGB™

Under the **CONNECT** tab you can use "Quick Effects" to give your Monster Smart lights effects like "Static" or "Spectrum Cycling"

From the **STUDIO** tab you can customize your lights based on several advanced effects, like "Ambient Awareness", which will make your lights match the colors of selected areas on your screen

From the **VISUALIZER** tab you can activate sound and media reactive effects as you play your favorite music, games, and videos

NOTE: for Razer Chroma RGB™ compatibility, BOTH Razer Synapse and the Monster Smart app must be open and running on your PC

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.
