RE: Updated ID Label and Location on FCC website

FCC ID: 2AG9A61810

To whom it may concern,

The Procter & Gamble company requests to make an update to the ID Label and Location for FCC ID: 2AG9A61810.

The current drawing has additional information on the diagram about other features of the product that the product team does not want to include in the public record.

Between the old and the new diagram, there is no difference to the size, shape and location of the FCC ID relative to the device.

The Procter & Gamble Company acknowledges that the old ID Label and Location has already been made available on the public database, but still requests the update to be made within 30 days of the grant.

Regards,

A handwritten signature in black ink that reads "Robert Schick".

Robert Schick
