Dear Frank / Kwok:

Submitted herewith, on behalf of LG Information & Communications, Ltd., is an amendment in response to your e-mail dated May 25 requesting additional information for the subject application.

1. The .26 W conducted power output level listed in the SAR test report was inadvertently submitted, and should read .62 W. We have remeasured the SAR with 2cm spacing, and the new SAR summary sheets and test data are attached.

We trust this information is sufficient to issue the grant. Should you have any further questions, please do not hesitate to contact us.

Thank you.
