**JUL - 6 2017**

Mr. Andy Leimer  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

Ref: Federal Communications Commission (FCC) certification of ICOM Inc. Transceiver,  
FCC ID: AFJ369900

Dear Mr. Leimer:

We have received the ICOM Inc. letter, dated June 6, 2017, notifying the FAA of an application, submitted to the FCC, for certification of the transceiver Model IC-A25N or IC-A25C with FCC ID: AFJ369900, and we have completed the subject review.

We have no objection to the FCC certification of this very high frequency (VHF) ICOM Inc. air ground transceiver for 25 kHz channel spacing operations, providing 8.33 kHz operation will not be exercised within the United States (U.S.). Applicant should be aware that 8.33 kHz is not allowed within the U.S. National Air Space.

If you require additional information, please contact Mr. Ian Atkins, Group Manager, Spectrum Engineering Services Group, at (202) 267-7531 or Ms. Annette Allender, Electronics Engineer, Spectrum Planning and International Team, at (202) 267-3893 or via e-mail: [annette.allender@faa.gov](mailto:annette.allender@faa.gov).

Sincerely,

David E. Spencer  
Director, Operations Support
