

September 12, 2006

To: PC TEST Engineering Labs

From: John Spall
Staff Engineer
Novatel Wireless

To whom it may concern,

This letter is to attest to the fact that Novatel Wireless is requesting a Class II permissive change to the FCC Grant for ID# PKRNVWES720.

This letter attests to the fact that this Permissive Change is required as the EVDO technology/functionality has been activated due to an upgrade in Firmware.

Thank you,

John Spall
