
124 mm diameter circular label to black die cut line

Grey print text color: Process Black 77 c0 m0 y0 k77

Background label color: MATCHED to MIMOSA WHITE SAMPLE PROVIDED

Orange is PANTONE 1375 C spot color outer ring bleed area over label die cut

BLUE rectangular area 40mm x 16mm with 1.2mm radius rounded corners represents a transparency area

NO GLUE ON RECTANGULAR TRANSPARENCY AREA
Transparency area begins 19.5 mm from bottom of the circle center die cut line

Note that icons are also knocked out on the Orange and White print layers

Icon transparency areas should have opaque transparency (fog) to disperse LED backlights

Changed in Rev B:
BLUE icons are transparency window areas.

Added in Rev B:
An UNDERPRINT layer in BLACK color provides masking for blocking LED illumination of the Orange Circles, leaving only the transparent icon area lit

3 registration points on orange outer ring for factory placement on product
