Initial Release (obsolete)	1.0	1.0	Feb-20-2012
Update company logo (current)	1.0	2.0	Jul-29-2019

## FCC Class II Permissive Change Request Letter

Date: 1/9/2024

To FCC:

**RE: FCC Permissive II Change Request for Company: Yardi Systems Inc. FCC ID: 2BAL9YDITRZB**

We are submitting an application for a class II permissive change to the FCC approval of the Company name: Yardi Systems Inc., product description: Wireless Gecko Multi-Protocol Connectivity Module (FCC: **2BAL9YDITRZB**, Original Grant Date: 6/19/2023). The transmitter module itself has not changed. Here are the changes:

The antenna was changed to the TE FPC 2344656-1, 2.5dBi Gain.

Bluetooth frequency hopping is disabled. The hopping module is not installed to support this feature. In the codebase for the driver, during the initialization sequence, it checks the config to see what functionality should be used. It checks to see if Bluetooth frequency hopping is enabled. If it is enabled an error is generated instead of trying to initialize the functionality. Even if the module is installed and the config is updated Bluetooth frequency hopping will remain off.

Sincerely,

Title Senior Vice President, General Counsel
