RE: Marconi Communications

FCC ID: PIDMARCONI4

I have a few comments on this Application.

- 1.) Are all the antennas defined for this equipment? If so, could you please direct me where in this Application they exist? Please identify them by type and / or model number.
- 2.) Are you defining this as Fixed or Mobile for the purposes of RF Exposure? Are there any RF Exposure safety statements in the manual? If so, please indicate where they are located.
- 3.) Are the same antennas used for both the low and high power transmitters? If not, please provide a matrix of permitted antennas.
- 4.) There is a factor of 3 difference between low and high power units. Please provide a parts list noting differences between these two models. If just a software setting, please indicate.

William H. Graff  
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
