1. EUT uncover view

A photograph of a USB dongle circuit board. The board is green and populated with several components: a large black integrated circuit (IC) labeled 'RTL8720CH', a smaller black IC labeled 'P2972', and a silver USB connector at the bottom. A red rectangular box highlights a small, blue and silver component on the right side of the board, with a red arrow pointing to it from below. The background is a light blue surface.
