Correspondence Reference No.: 13585

Dear Joe / Kwok:

Submitted herewith, on behalf of Samsung Electronics Co. Ltd., is an amendment in response to your e-mail dated April 21, 2000 requesting additional information for the subject application.

1. Attached is the remeasured ERP data in AMPS mode for SPH-T100 phone. Please note that the remeasured ERP data is performed using substitution method.
2. Attached is the revised tune-up procedure with + 0.2dB tolerance for AMPS mode (26.0dBm + 0.2dB/-4.0dB) (see attached amended tune-up procedure page 5). Please note that production units will be tested for conducted power measurements with the above tolerance before shipment to ensure the maximum power does not exceed this level (+26.2dBm).
3. We confirm all values listed AMPS and PCS/CDMA modes in the tune-up procedure are conducted output measurements

We trust this information is sufficient to issue the grant asap. If you have any further questions, please do not hesitate to contact us. Thank you.

Sincerely,

Randy Ortanez
President & Chief Engineer
