CHANGE IN IDENTIFICATION OF EQUIPMENT

The Toshiba Corporation Model WRLS-HS Unlicensed Personal Communications Systems (UPCS) is an OEM for the previously certified CTP Systems Ltd. The Toshiba's UPCS WRLS-HS handset is electrically the same as CTP's Model 1900-HS. The only difference is the front covers labeling and the type identification labels; therefore, the WRLS-HS meets all of the requirements of § 2.933(a) for change in identification without a change in design, circuitry or construction.
