               Bay Area Compliance Lab
               Sunnyvale, CA

SUBJECT: **Point To Multi Point (PTMP)/Subscriber Unit, New Power Supply**

Dear John,

As discussed, the Subscriber Unit of our PTMP system now utilizes the following new power supply:

     Manufacturer - Skynet
     Model WLH-T039
     Input Rating – 100-240 Vac/0.9 A
     Output Rating - +28Vdc/0.6A

It is our understanding that we need to apply for permissive change to our existing FCC certification report, FCC ID HZB-U58-S60. As such, all necessary testing will be conducted at your facility.

Thank you.
