Troubleshooting

1. Failed to connect to Wi-Fi.
 - a. Make sure the distance between the device and the router is less than 100ft.
 - b. Keep as few obstructions (e.g. wall, windows, etc.) as possible between the device and the router.
 - c. Make sure the Wi-Fi name and the password you entered is correct.
 - d. Make sure the Wi-Fi you connect to is 2.4GHz. 5GHz is not supported.

2. Lost Wi-Fi connection./Cannot use the device with the app.
 - a. Make sure your home Wi-Fi is working normally.
 - b. Check whether the Wi-Fi password has been modified.
 - c. Keep as few obstructions (e.g. wall, windows, etc.) as possible between the device and the router.
 - d. Check whether the device is connected to Wi-Fi. If the device is not connected to Wi-Fi, please reconnect by following the above steps.
3. Cannot pair or connect with Alexa or Google Assistant.
 - a. Ensure the stability of the Wi-Fi connection.
 - b. Go to the app's "Settings" page and follow the instructions under "User Guide" to pair the device again.
4. The synchronization effect for Music Mode does not work properly.
 - a. Make sure the control box is close to the music source, which will help the mic pick up sounds better.
5. Can multiple users control one device?
 - a. Each device can only be controlled by one account.
 - b. If multiple users want to control the same device, make sure they are using the same account.
