The integrated Edge detonator consists of an Edge surface module associated to a DaveyTronic® detonator equipped with a connector.
The Edge module can be contactless activated from a 1 - 5m distance with the DaveyTronic Edge® Programming Unit.
The module can report a communication status with the DBD and be electrically disconnected from the detonator.

Compliance for RF exposure requirement is demonstrated in test report.

If you have any queries, please do not hesitate to contact us.
