Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, identified as WTX-2 AC-2053, REV: 3.02-23. The component is shown next to a black ruler with white markings in millimeters. The component has a circular black feature on the left and various electronic components like resistors and capacitors. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 3	 A close-up photograph of the solder joints on the blue PCB component. The component is placed next to a black ruler with white markings in millimeters. The solder joints are visible as gold-colored connections. The ruler shows measurements from 0 to 70 mm.

Solder Board-Component View 4	 A photograph of a small blue printed circuit board (PCB) component mounted on a larger blue PCB. The component has several silver-colored solder joints and labels: "MI", "OR+", "R+", "R-", "IR+", "SW", "V+", "V-", "G", "CM". It is positioned next to a black ruler with white markings in millimeters, showing a scale from 0 to 60 mm.
Solder Board-Component View 5	 A photograph of a rectangular silver-colored component, likely a battery or capacitor, mounted on a blue PCB. It has two wires connected to it: a black wire and a red wire. The component has some text printed on it, including "2002", "000000", "0212", "+ 3.2V", "000000", "2002". It is positioned next to a black ruler with white markings in millimeters, showing a scale from 0 to 100 mm.
