- 1. USB-A
- 2. Wi-Fi LED Indicator
- 3. TYPE-C
- 4. Reset button

Function Introduction

1. Power on: Plug in power
2. Power off : Unplug the power
3. Restore Factory Settings : Press reset button for 5 seconds.

LED Indicator Type	Status	Remarks
Wi-Fi LED Indicator	On	Networking successful
	Flashing	No network

Function Introduction

Brand : GlocalMe

Model No.: GLMX23A01

Technical Specification:

- Size: 66*21*13.5mm
- LTE FDD: B1/2/3/5/8/12/13/17/18/19/20/25/26/28
- LTE TDD: B38/B41
- Wi-Fi: 2.4GHz 802.11b/g/n
- Interface: USB-A and TYPE-C
- Power output: DC 5V \equiv 2A

Quick Start Guide

1. Power On: Press power button for 3 seconds.
2. Connect to GlocalMe: When the Wi-Fi LED indicator “” is staying on, turn on Wi-Fi on your cell phone, select GlocalMe Wi-Fi, enter the password to connect to the internet. (Wi-Fi name and password can be seen on the back panel. as shown below)

**RF exposure statement**

RF exposure information: The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of 20 cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body. The full text of the EU declaration conformity is available at the following internet address: www.glocalme.com.

EU Regulatory conformance

Hereby, UCLOUDLINK (SINGAPORE) PTE.LTD declares that the radio equipment type GLMR23A01 is in compliance with Directive 2014/53/EU and this product is allowed to be

used in all EU member states.

FCC Regulatory conformance

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause. Undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and complies with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur during installation. If the device does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is suggested to try to correct the interference by the following measures: --Reorient or relocate the receiving antenna. --Increase the distance between the equipment and receiver. --Connect the equipment to an outlet on a different circuit to the receiver. --Consult the manufacturer or an experienced radio/TV technician for help.

Information on the disposal and recycling of the device This symbol (with or without a solid bar) on the device, batteries (if included), and/or the packaging, indicates that the device and its electrical accessories (for example, a headset, adapter, or cable) and batteries should not be disposed of as household garbage. These items should not be disposed of as unsorted

municipal waste and should be taken to a certified collection point for recycling or proper disposal. For detailed information about device or battery recycling, contact your local city office, household waste disposal service, or retail store. Disposal of the device and batteries (if included) is subject to WEEE. Directive Recast (Directive 2012/19/EU) and Battery Directive (Directive 2006/66/EC). The purpose of separating WEEE and batteries from other waste is to minimize the potential environmental impacts and human health risk of any hazardous substances that may be present. Do not disassemble or modify, do not short-circuit, do not dispose in fire, do not expose to high temperature, be disable after soaking. Do not squeeze or bump the battery. Do not continue to use if serious.
