RE: LETTER OF LTE Module Non-Operational Notification
Ref FCC ID: K95BKR9000

To Whom It May Concern:

At the time of this FCC Type Acceptance submission, the LTE subsystem is non-operational. Even though it is referred to throughout the submittal documents, it will not be used until the LTE development is completed. Therefore, BK Technologies, Inc. is asking to disregard the reference of the LTE module during this FCC ID approval process. When the LTE development is completed, BK Technologies, Inc. will submit a Class 2 Permissive Change to add the LTE model to the K95BKR9000 FCC ID.

Your consideration to this matter is appreciated.

Sincerely,

A handwritten signature in blue ink that reads 'Brian W. Jones'.
