Hello Marianne,

Our client, the manufacturer, has informed that there are not RF shield on the device to be removed. The RF module is a ceramic, like the memory IC or the microprocessor.

Could you please let me know when MET will issue the certificate?

Thanks and best regards,

Ricardo Orejas

Hello again,

The reviewing engineer has completed his review of this one and has the following issue:

RT Question:

1. Please provide internal photos of the EUT with the RF shield removed.
